that was stored in barrels and sold.

David Kiester questioned what their elevation was if they were in the flood plain.

An area resident stated that he owned B-1-B property to the southeast and that the highest point of his lot was 757 feet MSL and he was in the fringe. He stated that during the last flood the water came out in the street but he did not have any in his building.

There was no one present who wished to speak in favor of or in opposition to the proposed rezoning.

December 17, 1984 Business Session

Fred Yoss read the Site Committee Report:

Site Committee concurs with staff recommendation of DENIAL for the following reasons:

- 1) Approval would constitute spot zoning.
- 2) With the Flood Fringe Zoning implementation we should consider downzoning, not upzoning this area.
- 3) The Plan Commission should consider the two existing spot zoned of "M-1 and B-1-B" for downzoning to surrounding residential zone during update process in 1985.

Ben Eisbart stated that he has represented this area for some 5 years and he had some difficulty with the denial in light of the fact that the last home was built in the area some 10 years ago. He stated it does have B-1-B & M-1 zoning in the immediate area. He stated the area already

has businesses operating in the area. He stated that the cost and condition of the present structures is not the revelancy, but the fact is that it appears highly unlikely that this site will be developed for any more residential uses. He stated that key issue also to him was that the neighbors in the surrounding area including the school, have indicated that this would be a good neighbor and have no difficulty with it.

Edith Kenna felt that this would be encouraging development in the Flood Plain, something the City did not want to do.

Mr. Eisbart stated that this area was in the fringe and not the floodway, the area is affected when we have flooding but not to the extreme. Mr. Eisbart stated he felt the highest and best use was commercial.

Mrs. Kenna stated that she disagreed.

Mr. Eisbart stated that perhaps when we redo the Zoning Ordinance we will be able to find a place for situations such as this.

## RESOLUTION OF ZONING ORDI NANCE AMENDMENT RECOMMENDATION

WHEREAS, the Common Council of the City of Fort Wayne, Indiana, on December 11, 1984, referred a proposed zoning map amendment to the City Plan Commission which proposed ordinance was designated as Bill No. Z-84-12-13; and,

WHEREAS, the required notice of such proposed ordinance has been published as required by law; and,

WHEREAS, the City Plan Commission conducted a public hearing on such proposed ordinance on December 10, 1984;

NOW THEREFORE, BE IT RESOLVED that the City Plan Commission does hereby recommend that this ordinance be returned to the Common Council with a DO NOT PASS recommendation based on the Commission's following "Findings of Facts":

- 1) the grant will be injurious to the public health, safety, morals, and general welfare of the community;
- 2) the use or value of the area adjacent to the property included in the rezoning will be affected in a substantially adverse manner;
- 3) the need for the rezoning does not arise from conditions peculiar to the property involved and the condition is not due to the general conditions of the neighborhood;
- 4) the strict application of the terms of the zoning ordinance will not constitute an unusual and unnecessary hardship of this property;
- 5) the grant interferes substantially with the comprehensive plan adopted under the 500 series of the metropolitan development law; and,

BE IT FURTHER RESOLVED that the Secretary is hereby directed to present a copy of this resolution to the Common Council at its next regular meeting.

This is to certify that the above is a true and exact copy of a resolution adopted at the meeting of the Fort Wayne City Plan Commission held December 17, 1984.
